INTRODUCTION & SCOPE OF WORK

Chairman's Message

Dear Business Partner

It is a great delight to look back and see over 30 years of innovation, passion, outstanding service standards and the drive to always be our best. A couple of decades ago, nobody would have thought that the UAE would achieve such greatness and world acclaim. We, at Vogue Steel Factory LLC, are proud that we chartered a similar destiny with the nation, growing in leaps and bounds; creating a legacy of success and achievements.

We have come a long way from a small medium size fabrication shop to becoming one of the most recognized engineering and fabrication companies in the region for architectural and industrial sectors across the GCC and the Middle East.

Today, many well-known architectural and industrial companies in the region rely on our innovative designs, engineering and solutions that give life to their creations. We have designed and engineered many esteemed projects like Al Dar HQ, Presidential Palace,

Adnec, Burj Khalifa, Shaikh Zayed Mosque and are capable of meeting challenges that seem impossible.

I can say with justified confidence that we will keep delivering cutting-edge solutions and world-class services in the future too.

Thanking you with an underlined endeavor to serve all your structural steel fabrication requirements in the future.

Warm regards
Moiz Abbas
CFO

Company Profile

Vogue Steel was established in 1992 with the core focus of being one of the leading engineering and structural steel fabrication companies in UAE. With state-of-the art facility, we are equipped with highly advanced plant and machinery to carry out any complex engineering and fabrication work with utmost precision. Vogue Steel Factory is a professionally managed company with ISO 9001 and OSHAS 18001 certification. Based out of Sharjah Industrial Area 15, we are strategically located to cater to any market across the Emirates or GCC.

We have delightfully designed and fabricated some of the most prestigious projects in Architectural and Industrial sectors across UAE. From Al Dar HQ to Burj Khalifa, Adnec to Shaikh Zayed Mosque, we have some of the most iconic landmarks to our repute.

Our pragmatic growth is an attribute to our able leadership, technological advancement and our team energy. At VOGUE, every member understands and complies with the organization's initiatives and underlined objectives of becoming the partner of choice for all our discerning clientele irrespective of their magnitude.

- Maintaining quality, integrity and high standard at all levels of operation.
- ▶ Keeping our name synonymous with reliability, customer satisfaction and innovation.

► MISSION

- ▶ Continually building our skills and knowledge to meet the growing and diverse needs of customers.
- Ensuring that the design and solutions are purposefully engineered to suit each customer with a focus on high standards, on time deliveries and competitive prices.
- Sustaining our reputation as a reliable and customer-oriented structural steel fabricator in the market.
- Achieving profitable growth, operational and organizational excellence without compromising from our values and business ethics.

▼ VALUES

▶ Through integrity, accountability, passion, humility, simplicity and a focus on success, we have created a vibrant company culture where ideas can blossom and success can flourish.

SCOPE OF SERVICE & RANGE OF ACTIVITIES

- ▶ Specialist Installation of Curtain Walling Systems.
- ▶ Design Fabricators, Supply, Erection & Commissioning of Electric Overhead Travelling Cranes.
- ▶ Fabrication, Supply & Installation of Steel Water/Diesel Tanks.
- ▶ Design, Fabrication, Supply & Erection of Steel Structures.
- ▶ Fabrication, Supply & erection of Wire Rope Safety Fence
- ▶ Fabrication, Supply & erection of Animal Grids
- ▶ Fabrication, Supply & erection of Site Temporary Hoardings
- ▶ Fabrication, Supply & erection of Site Sign Boards
- ▶ Fabrication, Supply & erection of Structural Steel Boards
- ▶ Fabrication, Supply & erection of Porta Cabins
- ▶ Fabrication, Supply & erection of Aluminum Fencing
- ▶ Fabrication of water & oil Tanks
- ▶ Fabrication, Erection and Installation of flood light & transmission tower.
- Fabrication of Fuel Storage Tanks of various capacities from 250 liters to 25000 liters
- ► Fabrication of Acoustic (soundproof)/weatherproof canopies for Generators from 65 KVA Generator Set to 1 Mega Watt Generator Set.
- ▶ Fabrication, Erection and Installation of Workshop/Warehouse/Steel Yard Sheds.
- ▶ Fabrication of MS Pipe Lines for Water Supply/Sewerage.
- Installation & erection of plants and equipment.
- Industrial Piping.
- Process plant erection.
- ▶ Industrial & Mechanical Engineering Services
- Fabrication of components made to suit, clients design criterion
- ▶ Surface Coating by Sand Blasting epoxy coating & Powder Coating
- Structural bending of sheet in required section and plate rolling
- ▶ Hot dip galvanizing up to 120 micron.
- Fabrication and erection of Aluminum Curtain walls and glazing partitions (complete in all respect).
- ▶ Mobiles Camps(Porta camps) of 20ft.,6Mt. and 12<t. for accommodation Campos like Hospital, kitchen, Laundry, School, Food Stores, Community Halls, Gymnasium, Dining/Recreation, Avionics Store, Avionics Trailers, MTS, TOC, Cleaning Shop Maintenance, Ablution & Toiletries.
- ▶ Supply & Installation of Underground Irrigation System/Water Sprinkling Systems.
- Computerized drafting services.
- All types of Aluminum section sizing and assembly.
- ▶ All kinds of Sand Casting Material like Aluminum, Bronze, Copper, Ductile Iron and Cast Iron.
- ▶ All types of key requirements for execution of projects are provided on rental basis to our valued clients.
- ▶ Supply & Installation of cast Aluminum Grills, Decorative Fencing and Gates for Bound any Walls.
- ▶ Supply & erection of steel for Low Cost Houses.
- Supply & Erection of Majlis and Garage Sheds for Low Cost Houses.

EQUIPMENT

copes are produced with a mirror like finish and a

smooth corner radius. No touch-up is required. **Cut To Length –** 6 times faster than Band Saw

Miter Cuts - with compound angles

Notches & Cutouts - Notches, cutouts and flush cuts made by PythonX are smooth and do not require additional grinding or shaping. Their perfect fitup also results in less welding

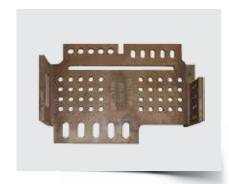

cuts slots and other shapes to the exact specified dimensions allowing for perfect fitup.

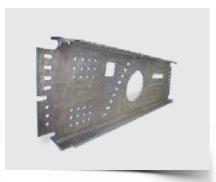

Stair Stringers - including layouts for treads Weld Prep Bevel Angles

Scribing & Marking – all letters and numbers

T-Beams – from splitting I-Beams

Layout Marks - for clips and stiffeners

EQUIPMENT

Metal Services

ACCUMECH P2060 CNC PLASMA CUTTING

Overview

Plasma cutting is a process that cuts through electrically conductive materials by means of an accelerated jet of hot plasma. Typical materials cut with a plasma torch include steel, stainless steel, aluminum, brass and copper, although other conductive metals may be cut as well. Plasma cutting is often used in fabrication shops, automotive repair and restoration, industrial construction, and salvage and scrapping operations. Due to the high speed and precision cuts combined with low cost, plasma cutting sees widespread use from large-scale industrial CNC applications down to small hobbyist shops

Advantages

- ▶ Able to cut all conductive materials.
- ▶ Great quality for thickness up to 50 mm.
- Maximum thickness up to 150 mm.
- >> Comparatively cheap for medium thickness cuts.
- ▶ Best way to cut medium thickness stainless steel and aluminium.
- CNC machines are available to provide high precision and repeatability.

Metal Services

ACCUMECH R1630 CNC ROUTER

Overview

Large format CNC router for aluminum composite panels (ACP) is a flatbed cutting machine for aluminum plate, aluminum sheet, aluminum parts with high speed & accuracy.

CNC router is a computer-controlled cutting machine used for cutting various hard materials for architectural purpose. CNC routers can perform the tasks of many metal shop machines such as the panel saw, the spindle moulder, and the boring machine. A CNC router is very similar in concept to a CNC machine milling machine. Instead of routing by hand, tool paths are controlled via computer numerical control (CNC).

Advantages

- Precision and Accuracy
- Repeatability
- ▶ Ease of Operation
- Reduced Manpower Costs
- Improved Safety

SL-II SERIES ELECTRIC WIRE ROPE HOIST A wide range of models designed for the most demanding applications...

Fixed Model (Lug/Foot-Mounted)

The base unit of all models Can be lug-mounted or foot-mounted. ideal as a replacement unit for existing installations.

Widely used as lifting machine for goodshoists.

■ Single Girder Model (Low Headroom)

The compact size provides very low headroom and short hook approach. Widely used an Single Girder Overhead traveling Cranes and Monorals. Trotely mechanism can be easily adjusted to suit various flange widths. Aniculated trotleys can be supplied for the purpose of travelling on curved beams. Standard capacities up to 16 Metric Tonne, Higher capacities up to 16 Metric Tonne, Higher capacities can be engagered. capacities can be engineered.

Double Girder Model

Designed and built for heavier capacities, up to 40 Metric Tonne.

Widely used on Double Girder Electric Overhead Traveling Crones

Optimum utilization of the available space thanks to the extremely low-built

Track gauge of the crab/trolley can be engineered to sulf existing installations.

Open Winch Model

The model designed for the most rough and harsh environment. The answer to 24-7 applications under ISO M7 and M8 requirement. The highest load capacity range available, up to 500 Metric Tonne

(Ex) Explosion proof models available upon request

TRANSFER CARS

We manufacture a complete range of Transfer Cars to cater for Steet Making Processes as well as general industries. From Scrap Yard to Electric Arc Furnaces, Ladle Furnaces, Continuous Casting Machines, Rolling Mills to Delivery Warehouses.

Top-Mech Transfer Cars are well known for their robustness, efficiency and performance, We engineer and make to suit your requirement.

Tell us your material movement needs and let us do the rest. We also tailor-make Transfer Cars for the Automotive, Hardware and General Industries.

TOP-MECH

ESTABLISHMENT

"TOP-MECH" is a brand name with more than 100 years of history behind it. Ever since our establishment, innovation. Quality and Reliability have been our main focus. This tradition has made us to be one of the leading brand in the global material handling industry.

WHY TOP-MECH?

TECHNOLOGY

Our products are born from the marriage between our customers' feedbacks and intensive Research & Development (R&D) efforts. Key components such as Holist Drivet are proudly designed and fully manufactured in Western Europe. Technology is the answer to the high performance and durability of our products. As an ISO 9001 certified and ISO 14000 practicing organization, continuous improvement has always been our emphasis.

EXPERIENCE

Our satisfied and loyal customers span across a wide spectrum of industries, which include:

-Oil & Gas -Constructions & Concrete Precast

-Water & Sewerage Treatment -Power Generation -Ship Building -Quaries & Cement Plants

-Entertainment industry

AFTER SALES SERVICE NETWORK

TOP-MECH has a network of established branches, subsidiaries, agents in major cities and countries all over the world to provide full range of technical support and after sales services to our customers.

Breakdown Response Contracts. Preventive Maintenance Contracts. 24-7 On-Call Contracts are some of the services offered by us.

Customer Service Management (CSM) system is designed to monitor & manage end to end service information database.

Our well-trained Service Call Centre engineers are ever ready to handle your calls, helping you to ensure the continuous operation of your equipment.

SPARE PARTS

To ensure spare parts availability for our equipment, we have established spare parts warehouses at strategic locations worldwide.

Our Parts Inventory includes thousands of types of Spare Parts of various reputable brands and makes.

To ensure On-Time Delivery, freight arrangement can be made by Road, Sea and Alir modes.

TRAINING

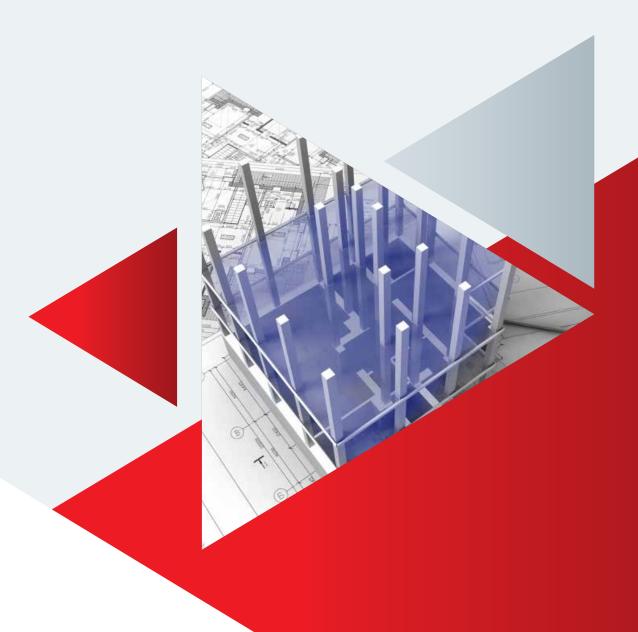

Our fraining services include Operation & Maintenance, in both theoretical and practical aspects.

WE BUILD & REBUILD

We after you the expertise of our engineers and technicians who build heavy material handling equipment, qualified to help you solve any problem in this field.

Our services include:

- -Engineering & Feasibility Studies
- -Inspections, In-House and Field Surveys
- -Rebuilds/Retrofits, turnkey capability from Tear Down to Re-installations
- -Modernization/Restoration for peak productivity and performance
- -Third Party Certifications
- -Local Authority Certifications, Licencing and Renewals

Subject	PQ Documents - GRP Works for Po	rte-cocl	nere – M/s Arabi	an Profile (M/s Vogue)	
Zone	General		Doc. Type:	Proposal	

RESPONSE SUMMARY

Miral Comments:

Approval subject to compliance with LDC and PMC comments. PMC to provide further definition of scope extent.

Ellisdon Comments:

No WW details 3001 accredited ¿E manual provided HSE CV submitted

> 1. As the Scope of Arabian Profile is 'Supply Only' for installation by Vogue, A factory Visit should be conducted to view the quality of GRP Products.

Contractor to provide the audited financial statement

Scope of work is clear and the company is very capable of delivering. FLS requirements to be met before commencing on site.

GAJ Comments:

- As per the Baseline Program, GRP Works Pre-qualification was the plan to submit between 17th July 2019 to 31st July 2019 and received on 27th November 2019. The Contractor shall be held responsible for the project delays associated with this item or any other related activities/consequences.
- The contractor has not submitted the documents as per PQ Checklist and ticks the below items without attaching the supportive documents:
 - Clear scope of works defined.
 - Program schedule agreed with the proposed subcontractor.
 Agreed to comply with work welfare project requirements.
 Plant and Equipment for the project.

 Arabian profile commercial license attached expires on 05th December 2019.
- The file documents are not in the correct sequence and up/down direction. SPML to check the documents prior submit for Consultant review and approval.
- The scope of work should not limit to BOQ only. It should be as per contract drawings, specification and BOQ. Submit the Shop Drawings, Materials and Method Statement as a separate submittal for review and approval.
- Submit the Site Organization Chart with contact details/CV in-charge of the site.
- The staff approval is based on actual performance at the site
- Online the provision of a fully warranted system under contract conditions.

 Usubmit the draft warranty certificate from Arabian Profile and Vogue as per the contract and scope of work.

 Usubmit the technical details comply with design intent and contract specification. 10.

- Submit comply statement of architecture specification.
 Demonstrate compliance with design specification, highlight non-conformances
- Demonstrate compliance with design intent, highlight non-conformances.
- 15. Confirm the company has all type of materials and types of equipment required for the project and all of these are certified and tested as per design requirements
- 16. Submit a material control sample of every type of materials complying with design drawings, specification, Estidama requirements.
- Follow HSE guideline and site procedure proposed by the General Contractor.
 Submit the fire test certificate comply with UAE Civil Defense fire tests code ASTM E 84 and NFPA 285.
- Submit a detailed program in-line with the General Contractor Baseline program. Submit the schedule of the submittals (Shop drawings, Materials, Method Statement) as per the program. 20. Submit labour forecast schedule.

- The contractor to comply with the Abu Dhabi authority standard and guideline.

 Quality Benchmark Installation: Provide the details of Benchmark list with dates and locations. Obtain approvals of all benchmark and to maintain them for future work progress reference.
- 23. The contractor to submit and obtain the following approvals:
 - Work Welfare Compliance.
 - Estidama Pearl Rating 2.
 - Materials and Samples
 - Method statement
